# Bullitt County Technology

The mission of the Bullitt County Technology Department is to provide the most effective and efficient information systems possible to empower and equip the students, faculty, and staff with the latest technology and resources to help meet our goals as a learning community. Increasing accessibility for all stakeholders has consistently promoted the integration of technology into the curriculum while fostering a student-learning environment that encourages, enhances, and truly integrates technological skills. BCPS will continue to provide the students with the most marketable technological skills and experiences to compete in a dynamic and complex global society.
